TELEGRAPH.

[Reported for The Morning Herald by Western Union.]

Graphic Report.

ACCIDENT ON THE ATLANTIC AND G. W. R. R.

THREE PERSONS REPORTED KILLED

RAILROAD ACCIDENT NEAR NEW LONDON, CONN.

GREAT PEACE NEWS FROM MEXICO

THE FRENCH LAYING WASTE THE TERRITORY.

BRECKINRIDGE AT SOUTHAMPTON

AFFAIRS AT RICHMOND

THE PRESIDENTS HEALTH

GEN. GRANT AT TORONTO

SAVANNAH DESPATCHES

ROBBERY AT TROY, PA

[Special to the Morning Herald.]

Corry, August 9.

The engine attached to the mail train going east on the Atlantic & Great Western Railroad, exploded and reported at Dunkirk. The engineer, fireman and expressman were killed.

The explosion occurred near Jamestown. No particulars.

Norwich, Conn., August 9.

The Norwich line steamer out from New London for Boston this morning, ran off the track seven miles north of New London. Forty persons plunged into the river, one passenger killed and twelve or fifteen others injured, but none seriously.

Sand Beach, August 9.

The Royal Mail steamship arrived off here 300 passengers this morning, bringing dates of the 6th and 30th ult., from Liverpool via Queenstown.

Seven hundred miles of the Atlantic cable had been paid out when the operation was lost by some cause unknown.

The political dispatches contain no important news.

New York, August 9.

The Herald's Vera Cruz correspondent says the condition of this unfortunate country is become daily more and more desperate. The Imperial Government far from mending, has made its affairs, only throws upon it fresh difficulties, which will require much time and trouble to repair.

The strictest silence is kept regarding the burning of San Geronimo and twenty-seven other towns on the river Papaloacan, in the Tuxtlas. Frightful stories are circulated by men who have come to the Tuxtlas, and have now left the place.

The Imperialists are concentrating all their forces in the Valley of the Papaloacan. They have created desolation and will, wherever they have penetrated, wound and plunder the people.

The Imperialists have done nothing more than to take a few towns, their commander, who is a mere boy, and who, if he had been in the service of the Republic, would have been shot for cowardice, has been ordered to Tuxtlas, and will be replaced by a more active officer.

The Republicans are still in great force in the Tuxtlas, and have not lost a single position of importance. The country generally is in a state of anarchy, and the Imperialists are powerless to do anything towards restoring order.

The Imperialists have not ventured to leave the Valley of the Papaloacan, and have not ventured to leave the towns they have occupied, for fear of being cut off by the Republicans.

The Imperialists have issued a decree that all those who will deliver up their arms and give up their horses to the authorities, will be pardoned. The military generally and a considerable number of the State which have joined the Imperialists, are now with the Republicans, and the Imperialists are powerless to retain their lost positions. Some of the Union men have joined the Imperialists, but Colonel Perry has expelled them, and has sent them out of the country. He has also stated that the General has recommended to the War Department the retention of a considerable military force in the State for some time.

It is believed that the State Convention will, if possible, force an immediate change.

The Vera Cruz correspondent of the Herald says the Imperialists there were congratulating themselves on the fancied bright prospects of the Empire and their expectations of its early recognition by the United States, for the purpose of securing a loan. Intelligence of a defeat, it was reported that General Almonte was preparing for a trip to Washington.

The correspondent describes the condition of the country as anything but flattering to the new government. The Republicans are still in great force in the interior, and have not lost a single position of importance. The country is in a state of anarchy, and the Imperialists are powerless to do anything towards restoring order.

The friends of Juarez are said to be remaining quiet.

New York, August 9.

The Times Washington special says the President is in good health. He spent some time yesterday out riding.

Toronto, C. W., August 9.

General Grant and suite arrived here on a special train at 10 P. M. this morning, and immediately departed in a steamer for Niagara Falls.

A large crowd assembled at the depot. Though his arrival was not generally known. An impromptu band striking up a tune, after which the General was called upon for a speech. But to this he could only bow and make his acknowledgements.

Washington, August 9.

The rebel General Hill, who was committed to the work house a few days ago for indecent and disorderly conduct, has been released.

New York, August 9.

The Cuban American from Savannah on the 5th, has arrived.

The Herald states that Parson Brownlow has been sent to Fort Pulaski.

On Howell Brother's farm, two miles from Jeff. Davis, and three miles from Savannah, were found the remains of a white man, hanged by the order of Captain Hussey, for making indecent remarks to the Rebel Court and Government. Subsequently, another half puppy received similar details from Captain Hussey for doubting the ability of one Union soldier to whip four rebels.

How the Rebels badly whipped! The Union men have frequently been insulted, if not by such cowardly cavalry.

The cotton has been excessively hot in Savannah.

New Orleans, August 8.

Another attempt to recover the Government property involved in the Louisiana claims, has been made in this city, from Liverpool, and forwarded from Cuba.

Governor Fenton has appointed Mr. Edward Hand Superintendent of the Printing Department. Mr. Hand has been the day before yesterday, fourteen years.

Mr. G. W. Foulk and daughter of Troy, N. Y., were out in the bay by the accident of a boat this morning.

Troy, Pa., August 9.

The safe in the office of the Howard Express Company, in this village, was entered on the night of the 27th, and a large quantity of Government bonds extracted therefrom.

The Express Company have offered a reward of $1,000 for the recovery of the bonds, and the apprehension and conviction of the thieves.

New York, August 9.

The steamer Scotia sailed to day, taking $150,000 in 5-20s.

A private letter from Lima, dated July 12, says the President of Peru has purchased the American ship White Pigeon for the purpose of transporting the ex President to Panama or Chili.

Advices from Buenos Ayres to the 6th of June and state that on the 24th of May, after a severe fight, the Allied forces succeeded in recapturing Corrientes from Paraguay. The Dictator Lopez is said to be at war with a great Indian tribe. It is also said that Burton is gone to the Paraguayans. The report is doubted.

The Golden City, just arrived, reports the U. S. Sailing ship Lucy at Acapulco, detained by heavy weather on her trip to that port.

FINANCIAL AND COMMERCIAL.

PETROLEUM MARKETS

OFFICE OF THE MORNING HERALD,
Titusville, Wednesday Eve., August 9, 1865.

The continued steadiness of gold at the advanced figure it has attained within the past four weeks, the general rise in the stock market the cheapness of money, and the strong probability of an increase in the volume of our currency, all point to a rise in the price of marketable commodities. The fluctuations in the New York oil stock market have been considerable, but the general tendency of good stocks is upward. Sales were made to day at the following figures: Buckeye 70, Webster 9½, Cherry Run 3, Excelsior $1 50, Rynd Farm 9½, Grimsby 38, Oceanica $1 25, United States $29 50, Pithole Creek $10 25.

The prices of oil in this market remain unchanged. Business quiet. We quote:

Crude at Well, on Creek	9@9½ 25
Crude at Pithole,	2 75@3 00
Crude at Titusville,	7 25@7 50
Crude at Titusville, (Bbls included)	10 00@10 50

[Special to Morning Herald.]

Tarr Farm, August 9.

A new well was struck on this farm yesterday. It was pumped to day and will undoubtedly prove a handsome well. It is on the lease adjoining the Honeybrook Oil Company's well. The wells on this farm are improving rapidly. Crude Oil drilled sold to day at $9 00.

[Special to Morning Herald.]

Brewster's, August 9.

Crude at wells dull at $10 25.

[Special to Morning Herald.]

Frankville, August 9.

Crude $9 25, at the wells.

[Special to Morning Herald.]

Pithole, August 9.

Crude Oil $9 00.

The receipts and shipments by water and railroad of the dividing oil stock this evening are as follows:

RECEIPTS

	Per cks
Crude	410

SHIPMENTS

Crude	1167
Refined	

PITTSBURGH OIL MARKET.

Pittsburg, August 9.

Refined is in much demand and dealers are anxious to buy at 65 and see what the Liverpool dealers were minded to do.

Crude the market is stagnant. Sales were made at 20.

THE MOST DIRECT ROUTE TO BUFFALO
Is over the A. & G. W. R. R. from CORRY to JAMESTOWN, via CHAUTAUQUA LAKE by Steamer to MAYVILLE, and by Lake to Westfield (the time during the Lake Navigation is the shortest route, Boat and Cars the same train which you would if you went by R. R. and avoid lying over half or two or three hours.
To connect with the Steamer going East you want to take the 8.15 A. M. train at Corry.
To connect with the Steamer returning from Buffalo, going West you want to be at the Lake P. M. train on the L. S. Short Road, as Cars West feed Youngsville at Tamarack 5.30 P. M., in time to connect at the Lake Wagon, West.
THIS ROUTE
Is but little known by the public generally as yet, consequently travelers have their doubts as to its facilities and may be concerned for Buffalo Fare at the Ticket Office of the A. & G. W. R. R. or at the Ticket Office in Buffalo of the Lake S. R. R.
The Lake by taking this route makes of it a
PLEASURE TRIP.
You get a variety—have a chance to move about, get a view of the fast scenery on the Western Lakes. Also, you can say that you have sailed on the finest steamer on the water by steam in the World. The Lake is 26 miles higher than Lake Erie.
CONNECTIONS MADE WITHOUT FAIL.
The Steamer will make two Extra Trips on Wednesday of each week for Excursion Parties and the public generally. Leave Jamestown on the arrival of the Corry Accommodation train 10.15 A. M. Leave Mayville at turning of R. R. train leaving Mayville at 7.2 P. M. Return Jamestown on the second trip at 5.15 P. M. return will run extra trips on any day of the week except Sunday, if parties giving notice one day in advance and furnishing at least 50 persons.
The Lake is 1-2 miles long from 40 rods to 3 miles wide, and from 1 to 60 feet deep. aug10dtf

Titusville Morning Herald.

THURSDAY, AUGUST 10, 1865.

The Census Returns for 1860,

Now in progress of examination with a view to the preparation of the volume of manufacturers in New England, represents an increase of sixty-two per cent in the manufacture of woolen goods, Middle States one thirty one-hundredths per cent; Western States, ten forty one hundredths per cent, Southern States, one hundred and forty-three per cent The Pacific States, Oregon and California, are not reported in the returns Two hundred and thirty-five thousand dollars is reported as the total manufacture of woolen goods. The total increase in the States and territories is forty-two per cent. on forty-three millions, five hundred and forty-two thousand two hundred and eighty-eight dollars in 1850 All the States show an increase except Michigan and Illinois. The only State in which there is not any returns for the manufacture of woolen goods is Arkansas

Miscellaneous Items.

—Major General Auger has been made a Major General by brevet in the regular army.

—The report of the cotton crop being injured by the army worm is contradicted

—Battery E, of the 5th United States Artillery, has been ordered to South Carolina.

—Confiscated land sales in Florida have been postponed until the 7th inst

—Twelve hundred bales of cotton, chiefly for Cincinnati, passed Cairo yesterday

—During the week preceding the last steamer, an average of one thousand bales of rebel cotton was sent to Liverpool by way of Matamoras

—The statement that President Johnson has pardoned a large number of treacherous rebels in North Carolina, is denied by good authority

—The Congressional contest in Richmond has been commenced by A Judson Crane offering himself as a candidate for that district

—Cotton is coming into Charleston from the interior more freely than formerly, owing to the roads being repaired.

—The troops serving in the Charleston arsenal are to be mustered out The preparatory order has been issued

—Advices from the South indicate that there will be a scarcity of cotton seed and sugar cane Louisiana will have to import her next year's supply of her own staple production

—Rations are issued to not more than thirty-five freedmen in Louisiana, and they are sick and helpless So Superintendent Conway says

—Gen Gilmore has organized superior and criminal provost courts of extensive jurisdiction in South Carolina They are in full operation

—Paymaster Wilson has returned to Washington from a tour through the interior counties of South Carolina, and reports the people bitter against the Union and the Federal authorities

Col Wilson, formerly chief Commissary of the army of the Potomac, has been brevetted Brigadier General of Volunteers and Major and Lieutenant Colonel in the regular army

—The confession of the Swedish clergyman Lindbach, who murdered several of his parishioners with the communion wine, is published It is a curious document These sentences indicates its character:

"When one stands beside an incurably ruined fellow creature, one wishes of all his heart, that he might be released from his heartrending misery * * I therefore, believed that the merciful God would not condemn me if I shortened the sufferings of a miserable fellow creature this action is certainly, to outward appearance, against all law, but in reality it rests upon grounds of compassion My God, before whom shall I finally answer, knows this, and with deep contrition I hold myself worthy of the sore punishment of the civil law for the sinful compassion exercised towards the dead persons in question case. * * You have now enough, my crime confessed, my house destroyed, my grave opened Farewell! farewell! Christ! That day I was ordained our pastor, I was ordained to death O, God! have mercy upon me!"

—A Fortress Monroe letter to the New York Herald, in which much rodomontade appears to be mingled with a good deal of truth, says of Jeff Davis: "He has not had sent him, except from his wife, a single letter of genuine heartfelt sympathy. But there have been letters which, all the bitterness of hate and malignant spleen and earnest malediction have been condensed into words of most stinging rebuke and sharply pointed sarcasm. It is well he does not see these letters."

—The narrow strip of land dividing the upper part of Portage Lake from Keweenaw Bay, west of Keweenaw Point is to be cut through by a ship canal. This long talked of work has at last been begun by a New York contractor [illegible] operations this [illegible] expects to have it finished [illegible] of navigation in 1866. The [illegible] thousand and fifty [illegible] from Portage Lake [illegible] will obviate the dangerous passage around Keweenaw Point.

ALL NUMBERS HAVE TWO BALANCE WHEELS

"It is an excellent combination of known devices in the production of a compact effective and cheap portable engine —Scientific American December

Portable steam engines made after the usual plan of boiler, the boiler and parts to the boiler are peculiarly liable to the terrible calamities resulting from want of entire stability in the structure, and the [illegible] expansions and contractions the various parts undergo in the boiler To remedy such defects has been the object in construction of an improved portable engine as represented in the drawing, where the whole of its parts are attached to a rigid bed plate of cast iron as in stationary engines, which bed plate is firmly secured to the boiler thus to great compactness and complete independence of the unequal expansion in the boiler It can be easily detached from the boiler and thus converted into a stationary engine if required it also permits the removal of parts of the boiler without any disturbance of the machinery The engine is entirely complete in itself, having a cylinder with its connections crank shaft of wrought iron, with two pulleys of different diameters of improved construction having wrought iron arms, force pump, safety valve steam gauge, heater, governor, &c The boiler is of the most approved pattern, with 3 inch tubes for burning resinous wood or coal, and is mounted on very strong and broad truck wheels, which enables it to be moved with great ease and safety from place to place"

We also manufacture

CROCKER'S CELEBRATED PATENT DOUBLE ACTING FORCE PUMP,

For forcing air down the well, which all other pumps has failed to do We deliver varying on from two to three pumps per day. We also recommend

F CROCKER'S PATENT EJECTOR,

in connection with the pump F Crocker claims all other ejectors for forcing air, water, and oil out of oil wells, as an infringement on his application

We use a self lubricating Piston, which keeps the pump from heating

All orders filled within three or four days after receiving the orders

VOLUNTARY CORRESPONDENCE from all parts of the Oil Regions, more especially that relating the discovery and production of Oil, and the development of Oil Lands, is respectfully solicited. We want facts, brief and to the point, but no anonymous communications.

THE POST OFFICE.—Four years ago, it may be presumed, a corner grocery, containing "a beggarly array of empty boxes," represented the storage capacity of the Titusville Post Office, and some "mill-boy of the slashes," mounted on an architectural resemblance to a hard trotter, and making a semi-weekly trip from Meadville with a mail-bag, constituted the "facilities" enjoyed by the inhabitants for communication with the rest of mankind.

A very surprising change has come over the institution since that period. To-day the Titusville Post Office ranks as the fourth in the State of Pennsylvania; the cities of Philadelphia, Pittsburg and Harrisburg only, taking precedence in the magnitude of their mail transactions. The business of the last quarter shows a delivery of 70,180 letters, an average of 8,291 per week.—During the same period 2,000 unmailed for letters have been advertised in the *Morning Herald*, and 2,250 sent to the dead letter office. The cash receipts for the quarter have been $4,000.

The business is steadily increasing. Constituting the gateway of the oil regions and the great emporium of trade, titusville is the grand point of travel and traffic. To visit Western Pennsylvania without seeing its metropolis, would be like going to Pithole City and ignoring the King of wells. Hence everybody is registered in Titusville whoever passed down the creek, and the transactions of the post office are relatively larger than at any other place on the continent.—The business has increased 600 per cent. during the last year, and four clerks are kept almost constantly employed in the arrangement and distribution of the mails.

Under the administration of Mr. J. R. Barber, the mechanical conveniences of the office have been greatly improved, and its dimensions considerably enlarged. Yet there is a constant demand for private boxes. The 1,000 now rented scarcely supply one half the demand, and it is believed that the 2000 *provided for* the new office, will be almost entirely pre-engaged. This building will form an extension of the present structure and a part of the block now in process of erection. It will be completed by the 1st of October and ready for occupancy.

We cannot close this brief notice of the institution without commending the public spirit and enterprise evinced by Mr. B., and adding that in the discharge of his official duties, (in common with his assistant, Mr. Lockart, and Mr. Skinner) there is ample testimony to their official energy, fidelity and success.

CLARION OIL MATTERS.—We have promising reports from the Clarion county oil regions.—The Porter farm well, one mile from Clarion borough, is down to a depth of three hundred feet. At that depth a strong vein of gas was struck, which threw the water over the derrick. There is a very strong show of oil. The Perahonsus well is being bored to a depth of six hundred feet. It is now down to a sand rock, below which it is anticipated a good vein of oil will be reached. There are two wells at the mouth of Piney. The upper well is down five hundred and eighty-eight feet, and the lower well two hundred and sixty-six. There is a good show at *both*, and Mr. Gentle is confident of striking plenty of oil inside of six hundred feet. Bryson's run well is yielding a good supply of oil. The operations on Little Toby are very extensive, and soon expect to hear good reports from that vicinity. The Whitehill well is now yielding ten barrels per day of very fine oil. The Clarion (new well) ten barrels per day of dark oil of superior quality.—When the water is exhausted this well will do a great deal better, as there are two veins shut off by the force of the water above them.

We call the attention of our subscribers and readers in the oil interest, to the working interests and the royalty, or free land interests in wells and leases on the Morey Farm, in the central producing locality of Pithole creek. We are informed that these most desirable interests are now being taken up rapidly, and the late striking of the new well No. 19, with its unexampled flow of oil, (less than forty feet from many of these interests) have created an active movement.

Prices are constantly advancing and must still further advance when the sucker-rods are withdrawn from this well, which we are advised will be done as soon as provision can be made for its increased flow of oil.

Application should be made for these interests at the Morey Farm Hotel. See advertising column of the Morey Farm Pithole Oil Co., in this paper.

Our readers will notice elsewhere an advertisement of leases for sale on the choicest oil lands of the well known Dawson Farm on Pithole, viz: the Morey, Burtis and Hinman tract, only a hundred and fifty rods above the large flowing wells. We regard this tract as offering great inducements for development; at the reasonable and moderate prices of bonus at which leases are issued, directly on main Pithole and in such close proximity to the richest oil developments of the world.

PERSONAL.—We regret that Henry Hutchings, of the firm of Haight, Hutchings & Co., whose over task of business has brought on a temporary indisposition, has left for his former residence in Hudson, to-day. During his short sojourn with us, he has made numerous friends, who will be glad to hear of his speedy recovery and return to our midst.

A VALUABLE BOOK.—We have received from Harper Brothers, publishers, a copy of Mr. Wm. Wright's new book on "The Oil Regions of Pennsylvania." It is a highly interesting and reliable volume, and will meet with an extensive sale. We shall review it in our next issue.

INGERSOLL WELL.—The Ingersoll well on Lot No. 68, which has been doing nothing for nearly a month past, started again on Tuesday, and is expected between 20 and 30 barrels.

NEW WELL.—The Jackson well on lot No. 70, Pithole flats, struck a splendid show of oil last Friday. It was producing over 20 barrels; but on Tuesday the machinery was damaged, and pumping temporarily suspended.

The place to buy Leather and Oil is at Hale & Silliman's. jy27d3m

A SMALL sized printing office is to be started or "set up" in Pithole City.

WE regret to learn that Mr. Millspaugh, of the firm of Millspaugh & Clark, is not expected to survive. He has been confined several weeks with typhoid fever, and is now suffering from a relapse.

WE notice a paragraph in many of our exchanges to the effect that the Coquette well is again producing 200 barrels. A telegraphic dispatch published in the Herald of yesterday stated that the Coquette had entirely ceased.

Letter from Franklin.

FRANKLIN, August 7.

Editors Morning Herald:

We have a permanent theatre located among us managed by Messrs. Morgan and Alexander. Their hall is poorly adapted to dramatic representations, being entirely too small, and the location rather unsuitable. However, considering all inconveniencies, the Thespians give a very creditable entertainment.

The frequent rains along the Allegheny and its tributaries, furnish water enough to enable the river steamers to pay us an occasional visit. It is pleasant to hear their whistle, and the subdued snort of their engines, and to watch the long wake of dense smoke as it curls up among the foliage along the tortuous river, looking like a dissolving view of some great leviathan snake. It gives one an intimation that business is not dead, albeit we are in the midst of dog days.

A few evenings ago, I wished to attend a meeting of the Town Council, and I naturally went to the Town Hall, but found no council. After some search and much inquiry, I found a few persons sitting in an obscure corner of a drug store; and this was the session of a town council of a borough which will soon aspire to be a city. I could not help thinking there was an inexcusable want of dignity in the proceeding, inasmuch as there is a good town hall, the location of which is known to everybody, containing on the first floor a court room and two offices, and on the second floor eight rooms, the whole surmounted with a cupola and bell. Any one of these rooms would be a more appropriate place of meeting for public officers transacting public business.

The contractors of the new hotels are vigorously pushing them to completion. Within the last three months, Doe street has been completely metamorphosed. The culvert from Liberty, street to the Venango river is nearly completed, and when finished the street will be well graveled. Old buildings have given place to new ones of imposing appearance. Every vacant space is being built upon. The post office and rail road travel keep up a continuous flow of pedestrians, all jostling their various ways, apparently in a hurry. And when the hotels are finished the scene will be a miniature representation of Chestnut street or Broadway. Liberty street is not idle in improvement, but Doe street bears away the palm. On the southerly side of the latter street, our townsman Hamm has commenced the foundation for the largest and best building yet erected in this place. It will be one hundred and fifty feet front by about one hundred feet deep, four stories in height, and built of stone and brick. The basement will be well ventilated and lighted, suitable for restaurants or other business. The first story will be adapted to stores, and a public market, and supported by massive ornamented iron columns. The second will be designed for offices or such kindred uses. A large and spacious hall will be contained in the third story, and the fourth will be parcelled into rooms for various purposes. The building will be surmounted with a fine cupola, and, if in accordance with the architectural drawing of the same, the edifice will be an ornament to the Borough, and a credit to the taste, spirit and enterprise of Mr. Hamm. The improvements of Franklin are due to a few spirited private citizens like that gentleman, and if the Rip Van Winkles who represent the municipal authorities do not soon wake up out of Sleepy Hollow, they will find themselves strangers in their own land. A public market house is much needed in Franklin, and should at once built, either by corporate authority or private enterprise. This week's "Citizen" contains an excellent editorial, in which is discussed the want of such an institution, and the abuses in the mode of selling meat and vegetables which that want subjects us to. I am glad to see that the same journal, in the same article, alludes to a subject I mentioned in my first letter—public education. It pertinently and properly inquires, who and where are the School Directors? What has become of the sums of money paid by the tax-payers for educational purposes? and why have no steps been taken to secure the State appropriation? We have not a single public school, and next to none of private ones. Yet there are hundreds of children running the streets in idleness serving a sure apprenticeship to ignorance and perhaps crime. This is a shame.

CRICKET.

Our Streets.

Titusville, Aug. 8th, 1865.

Editors Morning Herald:

I would like to call the attention of the town authorities, (through the columns of your valuable paper,) to the condition of streets. If a plank road is talked of to Pithole, the money is readily subscribed and the work progresses, but if anything is said about our streets, why there is no money in the treasury. There is no need of disguising the fact, our streets are full of green pools and loathsome sloughs, and no other people on the face of this continent would tolerate such a nuisance. Our public health demands a change. We have, to be sure, spent large sums already for the above purpose, but they have been misused. Let some one be employed to attend to this matter who understands his business, and use money which would willingly be subscribed if the people were sure any good would come from it.

AN OLD RESIDENT.

WITHIN a week the following list of accidents in this vicinity, have come to our knowledge.—Six persons, more or less severely injured at the burning of well No. 19. One man kicked by a mule, resulting in death to the man. Another man, who fell from his wagon, upon the Pithole road, was picked up with his leg broken, and cared for by a gentleman from Titusville. Another had his arm broken while at work upon a derrick. Another who had been importuned within a few days to insure his life, but who made ridicule of life insurance, saying that he never had an accident occur to him, has just had the misfortune to lose three fingers and a thumb by coming in contact with a circular saw. Had these unfortunate persons invested a few dollars with Frank O. Allen & Co., in the Travelers' Insurance Company, ample compensation for the living, and a comfortable sum for the family of the deceased, would have been the result.

PITHOLE CREEK

UNION OIL ASSOCIATION.

GEO. B. REED & CO., Agents in Trust

Choice Oil Lands to lease, (one half acre lots,) on favorable terms on this

ASSOCIATION'S FARM,

located on

PITHOLE CREEK,

which is now proven to be the very best oil territory in Pennsylvania.

The property is surveyed and mapped on H. B. Frazer's plan, which can be seen at our office.

This territory is all low creek bottom land located in a deep ravine, and in geological formation is (timber, principally cherry and oak,) similar to the famous

HOLMDEN FARM,

upon which the celebrated

UNITED STATES

Flowing Wells are located.

Some 60 oil wells going down within a short distance of the property belonging to this property, with good indications of oil.

For further information or leases apply at the Association Office, Room 3 Fletcher Block, near First National Bank, Titusville, Pa. GEO. B. REED CO.

aug9dtf Agents in Trust.

CHOICE OIL LEASES.

MOREY, BURTIS & HINMAN,

Tract of the well known

DAWSON FARM,

PITHOLE.

Apply to A. B. HINMAN, at the Hinman Well, on the property, or to ARTHUR BURTIS, Morey Farm Hotel.

OIL LEASES ON CHERRY RUN,

NEAR THE "BENTON" FLOWING WELL

THE GREAT REPUBLIC PETROLEUM COMPANY OF NEW YORK,

offer a few one acre leases on their farm THREE MILES ABOVE PLUMER. About two rods from the south line of the Great Republic Farm, is the Benton well, struck 31st ult., and now flowing upwards of 50 barrels.

The leases now offered are covered with timber. To secure leases on moderate terms early application must be made to

THOMAS E. BAYLEY, Box 540 P. O. or at the office next to the Moore House, Titusville, Pa. aug10d4t

OFFICE OF THE SAGE RUN AND OIL CREEK PETROLEUM COMPANY,

18 Wall street, New York August 1st, 1865.—Notice is hereby given that the Annual Meeting of the Stockholders of the SAGE RUN AND OIL CREEK PETROLEUM COMPANY will be held at the office of the company, 18 Wall Street, New York, on Tuesday, the 15th of August, at 2 o'clock p. m., at which time an election for Trustees to serve the ensuing year will take place. The polls will be open from 2 to 3 o'clock p. m. The transfer books will be closed from the 5th to 16th inst. FRANCIS T. WALKER, Sec'y. aug10d6t

OFFICES TO LET.

FOUR splendid large rooms and elegant offices to let in the new building opposite the Moore House. For further particulars apply to

aug7dtf S. M. MILLS.

TO CAPITALISTS.

An opportunity is offered for furnishing capital and putting down twenty wells for an oil company on Pithole, and now in operation near the U. S. Well.

The subscriber will furnish one-half the cost of sinking the wells and give one-fifth joining him a handsome profit, and 100% security for the amounts advanced to the work to be needed.

Address [illegible] Pithole City, P. O.

aug9d2w*

DISSOLUTION.

The firm heretofore existing under the name of Moore & Cheney is this day dissolved by mutual consent.

Mr. Cheney having purchased the entire interest of his late partner is fully authorized to settle the business of the firm. JAMES MOORE, A. H. CHENEY.

CARVER'S

NEW DOUBLE ACTING

OIL PUMP

AND GAS EJECTOR.

WE have just completed arrangements with the Patentee of this improved pump for the introduction into the Oil Regions of Pennsylvania. This pump is double acting, throwing the oil at both the upward and downward stroke of the piston, and producing nearly double the amount of oil than by the common pump. It also requires far less power than the common pump to produce a greater amount of oil. The

OUTER BARREL

furnishes an escape for the gas and thus enables the pump to work without being affected thereby, and thus saves the breaking of piston rods destroying of valves, bursting of seed bags and jarring by the force of the gas. The action or details of these pumps is not only much greater than that of any other pump, but is as so

CONTINUOUS,

(not being broken or checked by the DOWNWARD STROKE OF THE PISTON) and has a power to draw the oil from the crevice into the well, unequalled by any other pump or ejector now in use. Owing to the low price of oil it has been decided to reduce the price of these pumps for the present from $350 to $275.
